Your Accomplishments

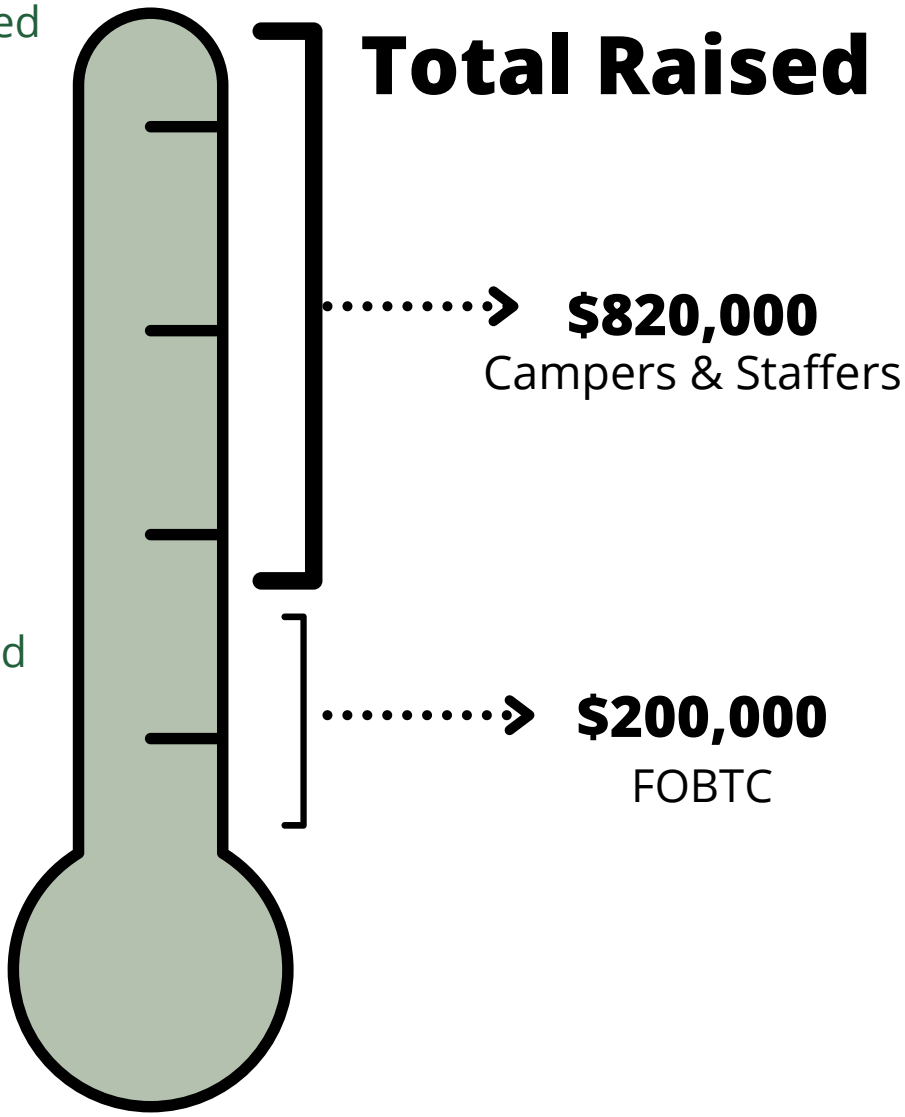
In 2019 we launched a Rebuilding Capital CAMPaign! We fundraised for what insurance, Fema and The City of Berkeley would not cover. This includes:

* main camp shade structures

* tall trees (more than 1 ft)

* 6,000 plants and trees (needed to replant 22 acres of camp)

* trail reconstruction and maintenance



What You Helped Us Fund

$420K - 2 Shade Structures - the design and construction of engineered structures in main camp over the green chair circle, and the playground.

$110K - Nature - 6,000 plants including tall trees, nursery care, planting plan, actual planting.

$50K - City of Berkeley - to show community support prior to Council Vote on whether to rebuild (2017).

$115K - Campaign Expenses - other ongoing campaign expenses over the last 3 years.

TOTAL SPENT TO DATE: $695,000

Where We Are Headed

Future Projects to Fund:

* Tent Shade

* Trail Reconstruction & Maintenance

* Irrigation for Main Camp

We are currently working on these important projects and getting costs and bids. We will continue to fundraise to ensure we make this wish list a reality. As an organization, our goal is to always give you confidence that we are doing the best we can with the money that you generously contributed.

The Impact You Continue to Make

We feel an immense gratitude for the overwhelming generosity from everyone in the Camp Tuolumne community.

Your passion to bring Camp back, to return to the river, to sing our songs and sit in a green chair, to bring your elders and your kids back to camp, has been remarkable to experience.

We so appreciate your involvement, contributions, and Camp Spirit.

The impact you are making will last for the next 100 years!
